Give up **Leaking**, not **Living**.

"I had constant problems with incontinence. Elitone changed my life. I now have complete control over urination again! No surprises, no worries."
-Diana, age 66

Do you worry about your next accident?
Do you wear pads because you leak urine?
Incontinence can rob you of the joys in life.
There is a simple solution to get you back to living life leak free.®

The Solution

Elitone is an at-home, non-invasive treatment that gently stimulates the pelvic floor and bladder muscles to contract and/or relax the tissues causing incontinence. With regular use, those embarrassing leaks will go away. Hello confidence!

Which Elitone?

Elitone comes in two versions, one to treat Stress Incontinence (SUI) and one to treat Urge Incontinence (UUI), which is commonly called Overactive Bladder (OAB).

Elitone (SUI)

If you leak when you cough, sneeze, laugh, or exercise, the original Elitone may be best for you.

Elitone URGE (UUI/OAB)

Elitone URGE only sends out calming signals. If you have urge incontinence, then this is right for you.

Why Elitone?

Easy

Elitone was designed to fit conveniently into your life. It only takes 20 minutes a day, is thinner than a pad, and comfortable. Wear it while you go about your normal day.

Live

Effective

See fewer leaks in just 6 weeks. 95% of users had success with Elitone. It's FDA-cleared and doctor-recommended.

External

Wear Elitone under your clothes, where you would put a pad, but adhered gently to your skin. Get dressed and clip the controller discreetly in your pocket or at your waistline.

"It's easy to use, and it fits my morning routine perfectly. It's comfortable and I'm loving the results. This product works!!! Thank you."

-Pam, age 56
